Innovation for inclusive value-chain development: Successes and challenges. Approaching the subject from various angles, it looks at new linkages to markets and the role of farmer organizations and contract farming in raising productivity and access to markets, the minimum assets requirement to participate in VCD, the role of multi-stakeholder platforms in VCD, and how to measure and identify successful VCD interventions.

Innovation for inclusive value-chain development

By working in partnership throughout the value chain, we help create conditions for equitable business relationships. Value-chain governance: We work with local partners to regularly convene discussions with value-chain actors. This creates opportunities to enhance the competitiveness of specific value chains for all participants.

Inclusive Value Chains | CRS

This paper investigates inclusive growth in agricultural value chains, with a focus on smallholder participation, upgrading behavior, and outcomes related to agricultural productivity, agricultural profits, and smallholder incomes.
