How Effective Managers Use Information Systems

Journal of Management and Marketing Research Management information systems and business decision making, Page 5 essence, decision making often calls for the reading of certain past work (Jahangir, 2005).

Management information systems and business decision

Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective, information systems are composed by four components: task, people, structure (or roles), and technology.. A computer information system is a system composed of people and computers that processes or interprets information.
