

## **infrastructure asset management standard pdf**

An asset management plan (AMP) is a tactical plan for managing an organisation's infrastructure and other assets to deliver an agreed standard of service. Typically, an asset management plan will cover more than a single asset, taking a system approach - especially where a number of assets are co-dependent and are required to work together to deliver an agreed standard of service.

Air transport requires access to high-quality infrastructure at competitive cost if it is to fulfill the demand for air travel, which, according to IATA’s 20-year forecast, is set to more than double by 2035. Collaboration with infrastructure partners—especially with airports, air navigation service providers (ANSPs), and fuel suppliers—is crucial.
