White Paper Technology and Innovation for the Future of

Innovation is a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business models that are made ...

Know more, Do more, Be more. Enabling professionals and businesses to grow by connecting them with knowledge, ideas and opportunities.

KNect365 - Know more, Do more, Be more.

What is smart future? The concept of "smart" has many different perspectives. In this paper, our concept of smart is about being intelligent, proactive, purposeful, aspirational, and goal-oriented in applying innovative ideas to achieve a desired future (Smart Future Initiative, 2016). Creating a smart future is much more than just being future smart where people prepare for the possible ...

In business, a disruptive innovation is an innovation that creates a new market and value network and eventually disrupts an existing market and value network, displacing established market-leading firms, products, and alliances. The term was defined and first analyzed by the American scholar Clayton M. Christensen and his collaborators beginning in 1995, and has been called the most ...
