The Scientific Revolution was a series of events that marked the emergence of modern science during the early modern period, when developments in mathematics, physics, astronomy, biology (including human anatomy) and chemistry transformed the views of society about nature. The Scientific Revolution took place in Europe towards the end of the Renaissance period and continued through the late ...

StarTram is a proposal for a maglev space launch system. The initial Generation 1 facility would be cargo only, launching from a mountain peak at an altitude of 3 to 7 kilometres (1.9 to 4.3 mi) with an evacuated tube staying at local surface level; it has been claimed that about 150,000 tons could be lifted to orbit annually.

### **StarTram - Wikipedia**

Nanowire arrays of SnS/SnS<sub>2</sub> heterojunctions are grown on transparent indium tin oxide (ITO) coated-glass and Si/SiO<sub>2</sub> substrates via chemical vapor transport (CVT). The nanowire arrays are comprised of individual SnS/SnS<sub>2</sub> heterostructures that are highly oriented with their lengths and morphologies controlled by the CVT conditions (i.e. reaction temperature, flow rate, and reaction time).

The classroom activity articles described and linked to this page were developed by The Space Place staff. They have all been published in past issues of the International Technology and Engineering Educator's Association's (ITEEA) journal The Technology Teacher.. We are now making them available in Adobe Acrobat (.pdf) format so that all teachers may use them.
