

international environmental issues african pdf

Thailand's dramatic economic growth has caused numerous environmental issues. The country faces problems with air and water pollution, declining wildlife populations, deforestation, soil erosion, water scarcity, and waste issues. According to a 2004 indicator, the cost of air and water pollution for the country scales up to approximately 1.6%–2.6 percent of GDP per year.

Environmental issues in Thailand - Wikipedia

Environmental law, also known as environmental and natural resources law, is a collective term describing the network of treaties, statutes, regulations, common and customary laws addressing the effects of human activity on the natural environment. The core environmental law regimes address environmental pollution. A related but distinct set of regulatory regimes, now strongly influenced by ...

Environmental law - Wikipedia

International Journal of Environmental Monitoring and Analysis (IJEMA) discusses technical developments and data arising from environmental monitoring and assessment, principles in the design of monitoring systems, and the use of monitoring data in assessing the consequences of natural resource management and pollution risks.
