Alcoholism, also known as alcohol use disorder (AUD), is a broad term for any drinking of alcohol that results in mental or physical health problems. The disorder was previously divided into two types: alcohol abuse and alcohol dependence. In a medical context, alcoholism is said to exist when two or more of the following conditions are present: a person drinks large amounts over a long time ...

The effects of pornography on individuals or their sexual relationships differ from person to person, and are often unclear. Pornography's association with addiction, for example, has been studied, but pornography addiction is not an officially recognized condition. While some literature reviews suggest that pornographic images and films can be addictive, insufficient evidence exists to draw ...
