The Paths to the primary Certification. The table below shows the different paths and levels for Cisco Certifications. All Certifications, except for CCAR, require passing one or more theoretical exams offered by Pearson VUE. CCIE Certifications also require a hands-on exam administered at special labs around the world.

The i.MX range is a family of Freescale Semiconductor (now part of NXP) proprietary microcontrollers for multimedia applications based on the ARM architecture and focused on low-power consumption. The i.MX application processors are SoCs (System-on-Chip), that integrate many processing units into one die, like the main CPU, a video processing unit and a graphics processing unit for instance.
