Measuring Knowledge Management Released August 2002 By Wesley Vestal The American Productivity & Quality Center (APQC) conducted its first examination of knowledge

Measuring Knowledge Management - Provider's Edge

A virtual team (also known as a geographically dispersed team, distributed team, or remote team) usually refers to a group of individuals who work together from different geographic locations and rely on communication technology such as email, FAX, and video or voice conferencing services in order to collaborate. The term can also refer to groups or teams that work together asynchronously or ...

Harnessing the Power of Virtual Reality (VR) for Quality. Imagine if every organization could have the luxury of a 3,000 square-foot room with tools purely dedicated for process improvement, innovation, and brainstorming.

Case Studies | ASQ

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

In incremental learning, the student usually remembers 95% of his or her top priority material. That knowledge is relatively stable and lasts in student's memory as long as the process continues, and well beyond.

SuperMemo: Incremental learning

Environmental Awareness - Naturalist Intelligence Environment is the area in which we live and share. The thin layer of air that surrounds our planet that supports life. Humans are the only kind of life that we know of that exists in our universe. If we did not have our environment we could not exist.
